SKILLS

Proficient: Javascript, HTML5, CSS, Git, Node.js, PostgreSQL, Sequelize, Express JS, React JS, Redux JS

Knowledgeable: React Native, Firebase, Gatsby, TypeScript

PROJECTS

[New-News](#) (*Express, PostgreSQL, React, Redux*)

- Chrome extension and web application that consolidates your favorite news sites and topics while also recommending you articles based on your interests. The web application also recommends articles differing from your usual interests to expose the user to topics they would not normally read on.

[Nudge](#) (*React Native, Firebase*)

- Independently built mobile app for groups of users to keep each other accountable for completing promised tasks to achieve a goal, storing backend in Firestore and rendering data on React Native/ Expo so users are able to use on their mobile devices.

[DashPad](#) (*React Native, TypeScript*)

- React Native app of mini widgets (weather, traffic, calendar, etc.) to re-purpose old iPads one might have laying around.

WORK & LEADERSHIP EXPERIENCE

Brown Brothers Harriman & Co.

New York, New York

Foreign Exchange Trade Specialist

May 2017- May 2019

- Directed execution of 1000+ DVP/RVP securities trades daily, with multiple clients across 50+ foreign exchange currencies to ensure accurate FX transactions, avoiding erroneous duplications and FX risk exposures.
- Addressed inquiries from client and internal teams regarding emerging market currencies and the Standing Instruction platform
- Resolved all trade discrepancies from pre to post settlement of the trade lifecycle with traders, Regional Managers, and Client Service Groups to ensure accurate cash and position reporting
